Public Sector
Recruitment

FPSG Cloud Services is integral to the digital journey of a growing number of public sector clients who are revolutionising their use of technology. Our service supports public sector bodies entering the cloud arena at all stages of the process.

This includes:

- Business analysis for planning & strategy
- Architecture for set up and migration
- Build for design and development
- Training pre and post implementation
- Support pre and post implementation

We work in partnership with our client base to find the best solution for them. Our delivery is based upon years of collaboration in the IT market. Our delivery model includes the appointment of an Account Director who will see your project from inception to delivery. This allows for:

- Thorough engagement
- Delivery plan
- Key milestones
- Constant project review
- Outcome control

FPSG Cloud Services are committed to supporting our clients' programme of work. Ensuring that Cloud platforms and solutions are built and implemented to increase efficiency both internally and externally.

FPSG Cloud Services are Cyber Essentials CREST certified through Cyber Tec Security.

Executive Search

FPSG is a specialist provider of executive search services across the breadth of our specialist sectors. We understand that the best talent is not always on the open market and use our strength of networks to identify and place key hires with our global client base.

Our methodologies include research and market mapping, full candidate assessment and interim contingency services.

In an increasingly competitive global market place it is crucial that businesses make the right leadership decisions. Our clients value our ability to help them make these decisions through our specialist networks and expertise, market insight and honest advice to candidate and clients alike.
